E-LESSON  
PLAN

**SAMPLE STORY BOARD / MINDMAP**

# Teacher e-Portfolio

---

- An info management learning tool / website designed for sharing knowledge and resources
- It allows the teachers to showcase themselves as professional teachers
- A compilation of T & L resources to be shared with other teachers and students e.g  
[https://padlet.com/m\\_arahim/EXERCISESLINKS](https://padlet.com/m_arahim/EXERCISESLINKS)
- Promotes collaboration among teachers creating a community of practice
- Encourages self-directed learning among students

# Some suggested contents for E-Portfolio

---

- Biodata / About self
  - My philosophy of teaching
  - Interests and hobbies
  - Subjects I am teaching
  - Administrative duties
  - Clubs and association
  - Teaching resources / websites / materials
  - Favourite links
-

# Creating Teacher e-Portfolio

---

- May incorporate multimedia - videos, songs, pictures, music, etc
  - attach own materials i.e. own modules, class notes, previous test papers
  - links to other resourceful websites i.e. study sheets, worksheets, study notes etc.
  - hobbies or interest sections
  - be creative
-

# Plans for Teacher e-Portfolio

---

- Compile your resources or artefacts into a folder or into Google Drive e.g. pictures, slides, teaching notes, sample exams, worksheets etc.
  - Draw a story board or mind map of your TeP
-

# Webquest

---

- Is also called a Web-based Lesson Plan
  - is meant for a group of 3-5 students
  - an information management tool for teachers
  - to be used outside of classroom time
  - A dynamic activity for students to work in a group
  - This webquest will also serve as a Lesson Plan for the teaching with Web 2.0 tools
-

# Features of Webquest - a useful tool for language learning purposes

---

- Easy way for teachers to incorporate the internet into the language classroom without special technical knowledge
  - Can be used simply as a linguistic tool that can also be interdisciplinary
  - Encourage critical thinking skills including comparing, classifying, inducing, deducing, analyzing errors etc. Learners not able to repeat info they find but are guided towards a transformation of that info to achieve a given task
  - Can be both motivating and authentic tasks and encourage learners to view the activities they are doing as something real or useful - leads to more effort, greater concentration and a real interest in task achievement.
-

# Creating a Webquest

---

- Prepare detailed instructions in the webquest based on the template form OR SEE sample of a complete form AVAILABLE AT : <https://people.utm.my/arahim/developing-e-portfolio-using-wix-com/> or in the [Google Classroom](#)
  - CREATE YOUR WEBQUEST USING WIX.COM SITE.
  - Once done - email the link of the webquest to your students/users (3-4) to try out.
  - “If” using Google Docs or Slides or Drawing etc, for students’ collaboration, instruct them to use the “share” function, share with you.
  - Do a presentation of the final product of your E-portfolio Webquest
-

---
