# 2015-2016 ANNUAL REPORT

## UNIVERSITI TEKNOLOGI MALAYSIA STUDENT CHAPTER of the Earthquake Engineering Research Institute (UTM-EERI)

REPORT DATE: MAY, 2016

In this report summaries about the activities that have been conducted by EERI-UTM SC in Session 2015/2016

### MISSION & GOALS

The Student Chapter of the Earthquake Engineering Research Institute (EERI) at the Universiti Teknologi Malaysia (UTM) at Malaysia, hereafter referred to as the Chapter, serves to further the mission of EERI by disseminating knowledge about earthquakes and their effects, and the mitigation of earthquake hazards through engineering. To this end, the Chapter organizes seminars and outreach activities, and encourages the student body to join EERI. The Chapter was founded in 2015 and start to be active. In the following report, we present information about the membership in the chapter and its activities during the 2015-2016 academic years.

### MEMBERSHIP

The Universiti Teknologi Malaysia Student Chapter had a total of seven members in 2015-2016.

### MEMBERS

The Board consisted of the following members:
