

## Chapter 5: Conclusion

“Wrap it up”

Should be a summary of **project aims and objectives.**

It should be **honest, short and to the point.**

\*\*\* For both research and system development projects

State all **achievements:**  
- Preliminary results (LR, experiments, surveys, etc)  
- Objectives completed

State all **plans and steps in the next phase (PSM2)** → like a teaser

Should be a summary of **project aims and objectives.**

It should be **honest, short and to the point.**

\*\*\* For both research and system development projects

State all **achievements:**  
- Results and contributions

State all **suggested improvements** → e.g.: to make system better or research more wide and accurate

It should reiterate **constraints and limitations of project**

System Development Based Project	Research Based Project

**Presentation**

## Tips

- What is important:
  - Problem background
  - Objectives
  - Scopes
  - Aim
  - Contribution
  - Methodology
  - Design

Talk about :

- What the problem is
- Your solution and why it is important (how it will make things better)
- What you plan to do
- How you plan to do it
- What you envision it to be

## Tips

- You should:
  - Be clear and concise
  - Not clutter your slides
  - Always choose the correct colour combination and font size
  - Never cut and paste into slide
  - Always understand you project fully → easier to present and answer questions
- You should:
  - Ask for clarification if you are not sure what the question is
  - Ask your friend to come take notes for you (of questions and comments)
  - Dress smartly, well groomed
  - Be prepared → practice

**End of class today**
