PROJECT TITLE

Address the problem you are trying to solve:
- the domain/area; the generic and specific problems; the effect of he problem

Your name ; matric#; email; picture; semester (Sem2_1516)

Your SV name ; email; picture

Address the solution you proposed:
- a system? a method?

How did you develop the solution/
-what did you use? how did you use it? etc >> the methodology

Tips:
Be clear
Be concise
Be creative

What is the end result?
did your solution work? how well did it work? what is the strength of your solution?

Do you have suggestions to make it even better? future works?
