Chapter 5: Conclusion

"Wrap it up"

*** For both research and system development projects

Should be a summary of project aims and objectives.

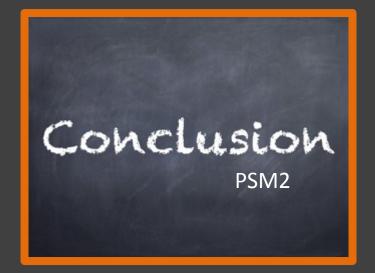

State all achievements:

- Preliminary results (LR, experiments, surveys, etc)
- Objectives completed

State all plans and steps in the next phase (PSM2) → like a teaser

It should be honest, short and to the point.

Should be a summary of project aims and objectives.

It should be honest, short and to the point.

*** For both research and system development projects

State all achievements:

- Results and contributions

State all suggested improvements → e.g.: to make system better or research more wide and accurate

It should reiterate constraints and limitations of project

Presentation

Tips

- What is important:
 - Problem background
 - Objectives
 - Scopes
 - Aim
 - Contribution
 - Methodology
 - Design

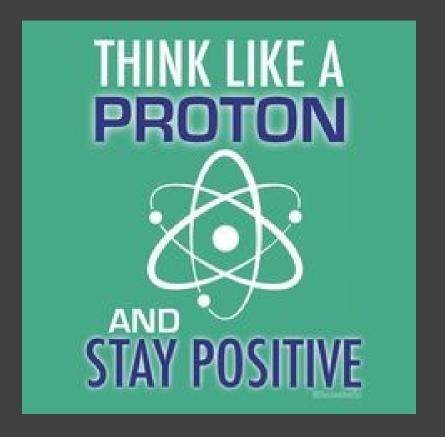

Talk about:

- What the problem is
- Your solution and why it is important (how it will make things better)
- What you plan to do
- How you plan to do it
- What you envision it to be

Tips

- You should:
 - Be clear and concise
 - Not clutter your slides
 - Always choose the correct colour combination and font size
 - Never cut and paste into slide

- You should:
 - Ask for clarification if you are not sure what the question is
 - Ask your friend to come take notes for you (of questions and comments)
 - Dress smartly, well groomed
 - Be prepared → practice

End of class today
