# EMBRACING OUR CORE VALUES

Synergy instills team spirit, togetherness, inclusivity, collegiality, respect, humility, cooperation and collaboration. It also breeds selflessness, resulting from care and concern for others above self, while embracing diversity and appreciating differences.

Excellence towards high performance and delivery will result in outstanding and remarkable achievement in all aspects of teaching, learning, research, innovation, commercialization and provision of services.

Integrity calls for adherence to sound moral values and strong ethical principles. This noble virtue must be internalised in our heart and soul, and manifested in our loyalty, character, conduct, deeds and action with wisdom and trustworthiness.

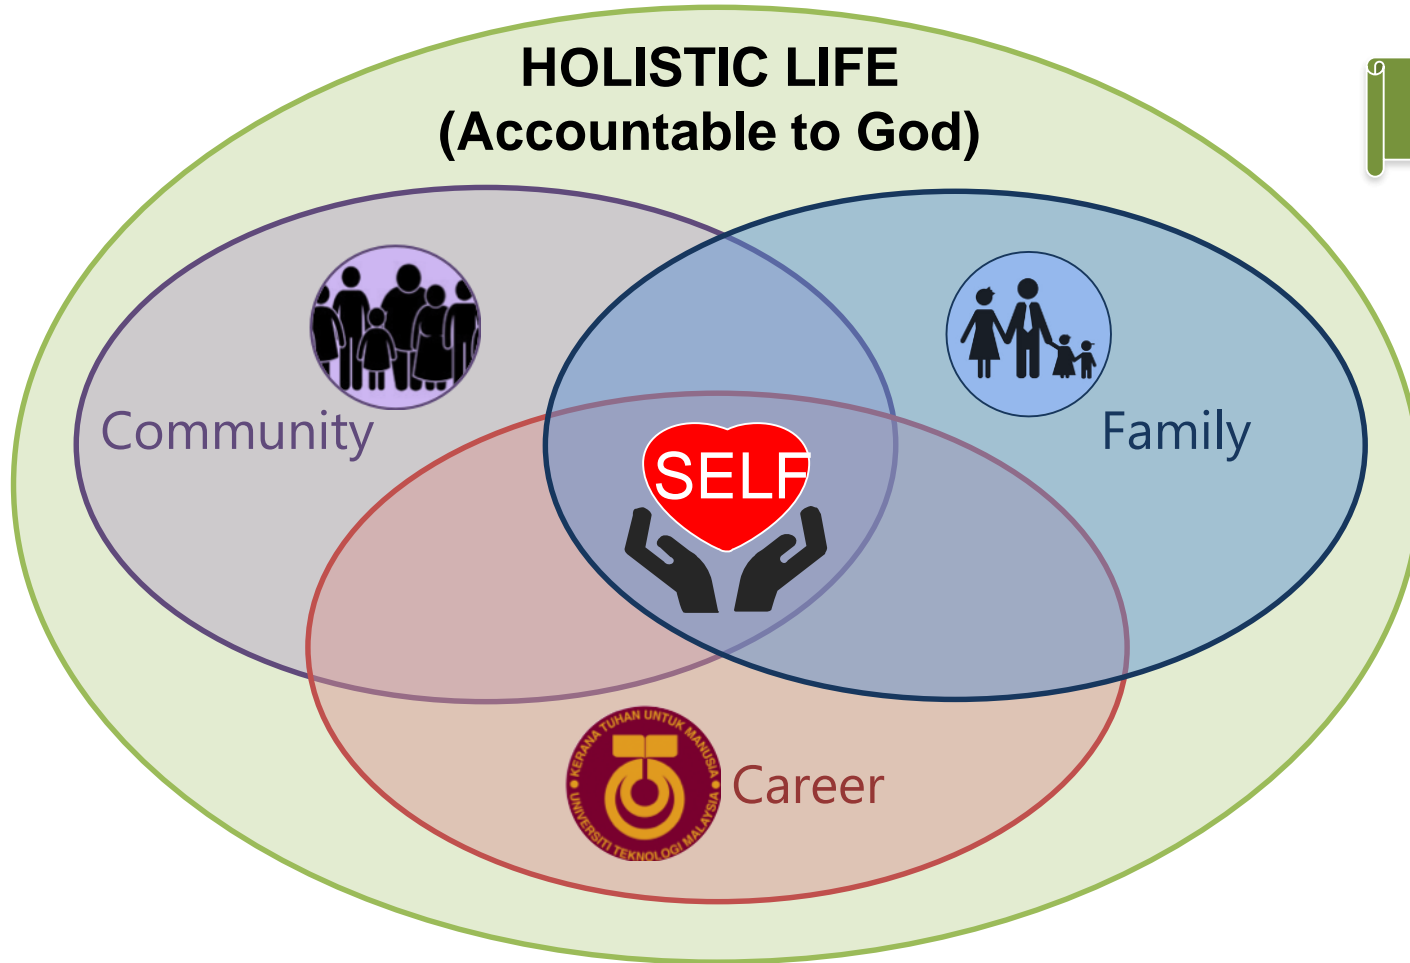

Sustainability is reflected in the holistic drive by the campus community in integrating and balancing economic, social and environmental spheres to meet the current needs without compromising the ability to exist and survive continuously.
