POST SETTING

The screenshot shows a mobile application interface for setting a post. At the top, a blue header bar contains a back arrow, the text 'Post settings', and a 'PUBLISH' button. The main content area is white and lists several settings: 'STATUS' (Publish), 'PUBLISH' (Immediately), 'POST FORMAT' (Standard), and 'CATEGORIES'. Under 'CATEGORIES', there are two tags: 'UTMLEAD' and 'TEACHING', each with a close button (X), and a plus sign (+) to add more. Below the tags is a text field containing 'UTMLEad, Blog for teaching and Learning'. Further down are fields for 'Excerpt' and 'Password (optional)'. At the bottom, under the 'LOCATION' section, there is a button with a location pin icon and the text 'ADD LOCATION'. Two blue callout bubbles are overlaid on the screen. The first bubble points to the 'CATEGORIES' section and contains the text 'Click for category'. The second bubble points to the text field and contains the text 'Insert tag'.
