31185	Very Agree	Very Agree	Not Agree	Agree	Very Agree	Agree	Agree	Very Agree	In fact lecturer provides enough discussion and explanations. Dr. Sykin is devoted and helpful. However, the problems lay in students. Some are not mentally-prepared, some are not used to self-directed learning, some lacks motivation when losing way. In my humble opinions, peer teaching could solve this.	Not at all.	Increase amount of hands on project on the spot. Maybe a session or two for all students sit down, discuss and play around with the software instead of doing project by themselves with the very limited skills they had. Tak kenal maka tak cinta. When they love it, they become passionate.
