- 32
- 1
- 2012-2015
- $24 + 11$
- $24 (8)$
- April 2016
- July 2016
- < 5

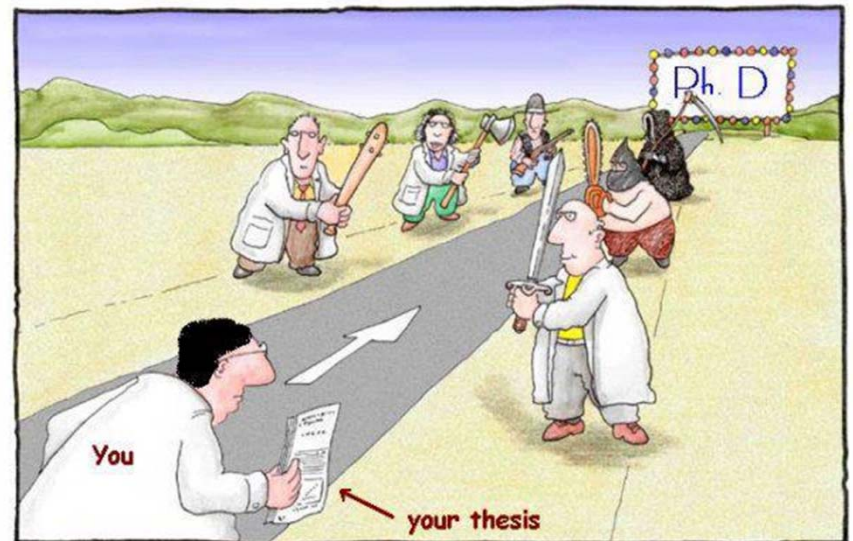

Who I am?

I am wife to the husband, the mother to my son,
the student to the supervisors, the leader to the
student group in faculty, the mentee to the
mentor and the mentor to the mentee

The Journey of PhD

- The 1st supervisor leave me forever
- Depress and demotivation
- 6 month to recover
- Alone without husband
- Handle everything alone

Steps to Recover?

- Search new supervisors
- Wake up
- Make a Plan B
- Have planner for whole year and to do list for everyday
- Make your life busy with what you love to do

Stop being ordinary BUT Choose Extraordinary

2012-2015:

- Appointed by Faculty as Vice President of PGSS (Research and Innovation)
- Young Women Scientists in year 2014 in Korea
- Appointed as Invited Temporary Researcher in Hanyang University, Korea
- Awarded as the Best Postgraduate Student with Chancellor award (the highest award in university)

PGSS-University Activities

You Know What?

- Every faculty allocate RM40K per year for academic workshop through PGSS
- Every academic workshop is free
- Free food and certificate is provided
- Lack of student involvement especially local student
- The workshop can polish your soft skill as well
- Workshop is platform of ‘connection’

Competitions

You Know What?

- Your SV will feel happy and willing pay the registration fee
- Polish your creativity
- Enhance confident level
- Gain your maturity through the exposure
- Competition is platform of 'connection'
- High contribution point to university

National & International Exhibitions

You Know What?

- You have opportunities to travel in Malaysia and abroad
- Your SV will feel happy and willing pay the registration fee
- High contribution point to the university

Intellectual Properties

- Invention of **Micro-Polymer Concrete for Construction Industry (Bio-polycrete)**.
(Status: Filing Patented- PI 2014700553)
- Invention of **High-Strength Pontoon Concrete (HSPC)**.
(Status: Patented: PI 2014703341)

You Know What?

- Student can be a contributor to the IP
- The IP belong to you
- You have potential to get the royalty if the product has been commercialized
- High contribution to the university
- IP takes about 1 year to get approve
- Make IP before you publish your work
- If you looking fast, you can make copyright (about 4 months to get approve)

Conduct Own Workshop

You Know What

- You can gain money from your effort
- Platform of ‘connection’
- Polish your personal soft skill
- You keep update the knowledge
- If you travel, someone will provide the accommodation and travel cost

Publications

- SCOPUS, ISI Low IP, ISI High IF
- 1st Paper ISI – IF 0.62 (54, 18, 6, 2 Comments, Published)
- Send High IF- 3 times Rejected with comments, 4th times accepted without correction
