

Comp Personal Website Structure

The screenshot shows a personal website for Mohamad Faiez Samsudin. The layout includes a header with the name and tagline, a main content area with a profile picture and bio, a sidebar with a menu of pages, and a footer with social media links. Annotations with red arrows point to various elements:

- Your Name & tagline**: Points to the top header area.
- Your Name**: Points to the name 'Mohamad Faiez Samsudin' in the header.
- Menu(PAGES)**: Points to the sidebar menu containing sections like Profile, Work, and Others.
- Profile picture & your info**: Points to the profile picture and bio text.
- Search box**: Points to the search input field.
- Latest News(POST)**: Points to the 'Latest News' section.
- Categories**: Points to the 'Categories' section.
- Latest (POST)**: Points to the main content area showing a post about 'FLEET / ASSETS OF MALAYSIAN ARMED FORCES (MAF)'.

Post & Pages Toolbar

1. Mostly your toolbar for article in Post & Page will look same like using Microsoft Word.

The screenshot shows the WordPress 'Add New Post' editor interface. The toolbar is annotated with red arrows and labels:

- Title**: Points to the title input field.
- Add image & video**: Points to the 'Add Media' button.
- View like Microsoft Word**: Points to the 'Visual' tab.
- View in coding format**: Points to the 'Text' tab.
- Insert content in here**: Points to the main content area below the toolbar.

Widgets
